

TITUS SAFETY TORQUE TUBING HANGER

- ❖ Exclusive inner mandrel design with long EUE pin end connection for maximum bite area of power tongs.
- ❖ Made up with power tongs for optimum torque and no more pipe wrenches and snipes for total safety.
- ❖ Manufactured from 4130 NACE Spec Material.
- ❖ Left hand thread on inner Mandrel.
- ❖ Tong Torque Spec perfected.
- ❖ No Loctite used to make up connection.
- ❖ Sanded tubing feature allows outer shell to be removed and allows movement of tubing downward as well as upward, thus eliminating low lying slips, tubing spears and easy installation of Blow out Preventers when tubing is sanded.
- ❖ Allows inner mandrel to be coil friendly using 1 inch coil for freeing up of sanded tubing between casing.
- ❖ Patent Pending
